

Hi from the WHJSC Committee,

What's happening at the Reserve?

August our last month of Winter. Winter has come in cold, wet and windy so please take care when walking through the Reserves part of the Say G-Day Trails.

When driving through the Reserve please observe the road speed signs of 10 KM's and beware of children.

To our community, our Reserve continues to develop into becoming a focal point for our community. Our Sports Clubs are used as a central point to our community. Not only can they be a site of actual sporting activity, which itself brings the community together, our location is seen as a central point of formal and informal community gatherings.

It's your Reserve and it's our community, so come down and appreciate what we have to offer our community of Wandong/Heathcote Junction

Defibrillators:

The L.B.Davern Reserve now has 2 sets of Defibrillators, supplied by the Committee of Management and St Johns. One in the Sports Pavilion and one in the Community centre. Please follow the links below for usage and general instruction information on how to use .

Redevelopment of Netball/Tennis courts (Top Courts) Update:

Grant was successful with a grant of \$250,000 (State Govt) plus council contribution, in addition to the **\$32,000** for the design component for the courts. Design Consultants have finished the planning and will consult with Clubs and Reserve committee of which that process has started. Project is to start in September/October this stage no further information has been received.

Public Toilet Project:

The Reserve committee is working on providing a community public toilet for the community over at the horse ménage area of the Reserve to service the 2x horse riding club and dog club and other use groups and the community, just waiting on approval and permits from Council. We may need community help to complete the project.

Middle Courts: The repair works proceeding to repair the cracks in the middle multipurpose courts have been done and all Tennis Schedules have resumed. But unfortunately the cracks have returned, very disappointing.

Our User Groups are busy into their programs and heading into the business end of their prospective programs: Winter Season groups:
