

Positive ageing workshop and survey results.

Our Positive Ageing Ambassadors have participated in extensive consultation over the past six months with our senior community to identify:

- > what our senior community members enjoy most about their community
- > what things limit their participation in the community
- > what three improvements they would like to contribute to a greater age-friendly community.

Our Ambassadors are now calling on key stakeholders and community groups to join them as they:

- > present the findings of the Positive Ageing Survey
- > call on you to help brainstorm potential project ideas
- > work with you to identify partnership opportunities to help our community be more age-friendly.

Each session will run from 1.30pm to 4pm.

SEYMOUR

Monday 20 November
*Seymour Sports and
Aquatic Centre*
Pollard Street
