

# SOUTH MITCHELL NEIGHBOURHOOD WATCH

## HOME SECURITY IS YOUR RESPONSIBILITY

Give your family the peace of mind of what security technology can offer. Ask yourself —why not!

Our tips: •Configure your new CCTV connection to your phones.

•If you can afford it, get your new alarm monitored back to base.

•Have your security technician set up your new alarm with duress buttons and perimeter —arming of doors and windows.

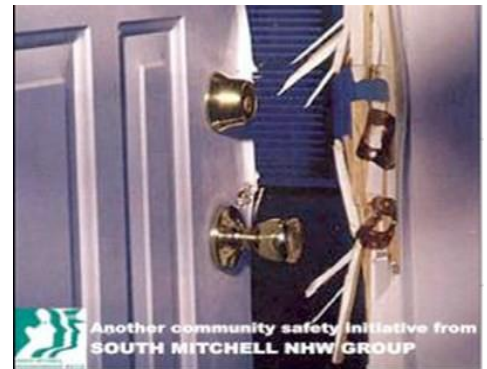

•Always use a VICPOL registered technician for CCTV and alarm work, If they don't have it, don't use them.

•CCTV in 2018 is now so clear, day or night that you should be asking for 8mp H265 cameras. It's amazing the quality improvement in just 2 years!

**THIS IS WHAT A HOME INVASION LOOKS LIKE. IT IS A COMMON SCENE TO COME HOME TO NOW and even worse if you are in the house at the time.**

A security screen door at both front and back is the best way to help stop this happening to you.

A security door is an effective deterrent against a possible "kick in". Security doors harden the entry to the home and give a safe distance to talk to callers through after opening the front door while still ensuring personal safety.

### SEEN SOMETHING? WHEN SHOULD I RING 000?

Definitely ring 000 if you suspect criminal activity: -

[a] is taking place

[b] has just taken place

[c] you have reason to believe is about to take place.

That includes **EVERYTHING** that could be seen as criminal behaviour including hooning and graffiti.

**DON'T RING YOUR LOCAL STATION. RING 000**

2nd option is CrimeStoppers. If you have information that may assist police to clear up a previous crime or know or suspect someone of some previous activity that the police should know about that is not immediately requiring attention ring CrimeStoppers on 1800 333 000.
