

Wandong Primary School

Well it sure is a strange old world that we are living in at the moment. Despite the challenges we all currently face I am happy to say that the Wandong Primary School community have embraced the challenge head on.

I asked some of our student leaders what they were enjoying about learning from home and here's what they said:

☐Charlie: "what I've enjoyed is getting to stay home and spend more time with my family. When I've finished my learning tasks, I get to do all the stuff I would usually do on the weekends."

☐Riley: "The things that I like the most are working on my computer more than I would in class. Sometimes I get to finish early because I've got all my work done, and I get to play tennis during my breaks."

It is a wonderful feeling to know that our students can continue with their learning whilst helping keep our community safe.

Exciting things have been happening back at school whilst the yard has been empty. Parents and students will be excited to hear that concreters have been busy laying paths to make moving around the school even safer. Not only that, Mrs Morrow was successful in gaining a grant to fix the drainage which was causing water to pool on the oval. We look forward to further improvements to our facilities as we hopefully move out of this current Covid 19 pandemic.

Anzac day is always a special event at Wandong Primary School and this year was no different. An ANZAC service was posted online involving the school leadership team, school captains, sports captains and SRC captains. It was a unique experience for all who took part. If you would like to view the school service visit <https://youtu.be/uKvnHgpNOgM>

An important message to our Foundation 2021 families:

Given our current climate we have postponed our first Open Day mornings and evenings. However, we are keen to have a phone conversation with any questions that you might have. Please phone the Principal, Kelly Morrow on 57871232. The information packs have a set of enrolment forms in them and we are urging families to forward their enrolment forms as soon as possible once they have made a decision. We are hoping that our special information evening for those families already enrolled will go ahead on Monday 22nd

June with school readiness expert Dot Deviny. We urge you to follow our official school Facebook page at <https://www.facebook.com/WandongPS/>

Keep smiling

Rachael Williamson

STEM Specialist, Wandong Primary School
