

WANDONG HISTORY GROUP

Wandong Stadium is no more

After many years of advising the various councillors, council officers and anyone vaguely to do with council finally someone listened. The embarrassing mistake on the signage at LB Davern reserve has finally been fixed. We did offer to take a texta down and make the change but that would be seen as graffiti and we couldn't do that so now officially we can celebrate that Wandong now has a STADIUM!

While discussing the issue of the incorrect sign we also advised council of the state of the public toilets at the memorial park, door locks broken, toilet paper rolls broken and one completely missing and the cleaning that is so poorly done that after the cleaner leaves the toilets are just as bad as before they get there. Fortunately, a shire officer was witness to this so we are expecting to see a great improvement on the management of these facilities. Hopefully the locks will be fixed for ANZAC Day.

We also pointed out the growing piles of rubbish around the Plaza, bins are regularly overflowing, and yes there is more pressure on with the all the extra activity with inland Rail in town. We have asked the shire to have the bins emptied more often, lets see if that happens.

It would be great if more people could report issues to council, we were advised to go direct through the Mitchell Shire app to do so. There are growing piles of rubbish being dumped all about the place and it's a massive issue and all that rubbish finding its way into paddocks being ingested by farm animals can kill them in very quick time. The shire is catching up and fining people when they can but everyone needs to be on this to get our town cleaned up and a place we can be proud of again.

Don't forget ANZAC Day, any groups or organisations wishing to be part of the official wreath laying need to let me know ASAP.
