

# Wandong Primary School

In a year that has been anything but ordinary, the Wandong community have pulled through with the mindset of making every day count – and boy is that happening! The 2020 Graduates are gearing up for a Graduation like never before. It is wonderful to see them embrace changes with Curiosity whilst demonstrating Kindness and Pride in all that they do.

In the first week of December the staff and students painted the school (well at least the students and staff) rainbow colours as they participated in a whole school 'colour run'. It was such a wonderful day filled with big smiles, laughter and of course, RAINBOWS!

Tuesday 8th December saw students participate in 'Statewide Transition Day' where students were able to meet their teacher for 2021 and get to know their new class members. Always a day that contains a mix of excitement and a little apprehension, it was wonderful to see students happily settle in and looking forward to the year ahead.

To finish off such a memorable year, our students are buzzing with excitement over the whole school pool party that will be held in the final week of school.

We at Wandong Primary School wish you all – our community – a very Merry Christmas and a happy and safe New Year.

**Keep smiling**
